DIARY NOTES

ADD/A (Colonel White)

28 January 1952

25X1A9a
25X1A9a

1. [REDACTED] reports that the repair work at the Personnel Pool started today. It consists of plastering, painting, and a general clean-up. I agree with [REDACTED] that we should not spend any more money than is necessary here since PBS has indicated that we may not be able to occupy this building beyond 1 July 1953.

2. Spent considerable part of the day working with General Davison, Ed Saunders, and Bill Peel on a staff study to be presented to the Director on the subject of personnel ceilings.
